WINTER: warm and light clothing to wear under the wetsuit (thermal shirt or lycra), water bottle, light lunch (sandwiches, fruit, energy or cereal bars), dry clothes for the end and a bath towel. If you do not wear neoprene boots, we recommend a pair of old sneakers.

Recommendations

During winter or in periods of high precipitation, river flow may vary rapidly in a few hours, so the activity is always dependent on the analysis and evaluation of the river at the exact time, also taking into account the participants' experience and their age group. Trans Serrano may have to cancel the activity immediately before it starts. During autumn and winter, we do not recommend the participation of children and young people under the age of 16. Participants wearing glasses must pay special attention to them. Make sure to bring a glasses' cord to avoid getting them lost in the river. We do not recommend the use of mobile phones, cameras and other electronic devices along the activity. Also, during the activity, there should be nothing visible inside the cars. And everything considered of value should be placed in a backpack (which will always be with the participants or with the organization).
